

## **Emergency Action Plan for LSH / WFD / Mosaic Medical**

The Mosaic Medical team EMT **will** be the charge person upon the occurrence of an incident.

A team player **shall** step forward to aid the Mosaic EMT.

When an action to call an ambulance has been decided, the EMT **will** direct a volunteer player to go to the call box and inform the WFD.

The EMT **may** also call 911 in order to inform the dispatcher of any ongoing condition of the injured player. This **does not** preclude the WFD call.

The volunteer player **will** proceed to the call box and inform the WFD attendant that an ambulance is needed, direct them to which pad, and the type of injury.

The responding ambulance team **will** take over as charge person.

The affected LSH team captain will report the incident to their convener.
